

MICHELLE PERCY

Product Designer

UX Designer with 4+ years of experience delivering research-driven, user-centred digital products across health, wellness, e-commerce and data-led platforms. Experienced in leading end-to-end UX, from research and discovery through to design, testing and implementation. A background in psychology and front-end development brings a strong understanding of user behaviour, accessibility and technical feasibility.

Experience

UX Designer // Slimming World

May 2024 - Present / Alfreton, United Kingdom

- Lead UX and collaborate closely on UI for the redesign of the public group search, using research and usability testing to address key pain points and improve the member journey.
- Collaborate with cross-functional teams to deliver user-centred solutions within technical and MVP constraints.
- Conduct research and testing using Maze and Optimal Workshop, with group search sessions increasing by 120% since launch and Consultant profile sessions increasing by 600%.
- Lead UX for the integration of group search into the app, acting as a key UX contact for an international third-party development team throughout the build.

Co-founder // PercyTech

2023 - Present / United Kingdom

- Design and build bespoke websites using Wix Studio and custom HTML, CSS and JavaScript.
- Manage client relationships and translate business goals into effective digital experiences.
- Designed and launched CakeSheds.com, a UK-wide cake shed finder with 380+ active cake sheds.

UX/UI Designer // CTR Group

April 2022 - May 2024 / Utttoxeter, United Kingdom

- I worked across the full product lifecycle as both a UX/UI Designer and Front-End Developer, gathering requirements, conducting user research, designing wireframes and prototypes, and translating them into responsive, accessible front-end solutions.
- I also gained hands-on experience designing and developing e-commerce solutions using Shopify, tailoring themes and user flows to meet business needs.

Senior Teacher // Education First

October 2017 - March 2022 / Tianjin, China

- Managed a team of 23 teachers at an EF Tianjin school
- My role included staff mentorship and supervision, staff development, implementing training and workshops, lesson planning, teaching, and ongoing personal development
- Transitioning teachers to online learning during the Covid pandemic, including preparing resources, training and ensuring teacher were adept to teaching online.
